

项目面积: 690平方米
项目地点: 西班牙马略卡岛
设计单位: Checkland Kindley&ides
设计师: Juan Manzanares Suárez,
Cristian Santandreu Utermark
主要材料:

Area: 6901 m²
Location: Island of Mallorca, Spain
Design Company: Checkland Kindley&ides
Designer: Juan Manzanares Suárez, Cristian
Santandreu Utermark
Main Material:

向自然借来“阳光”与“风景”

Castell dels Hams酒店

泳池与水疗中心

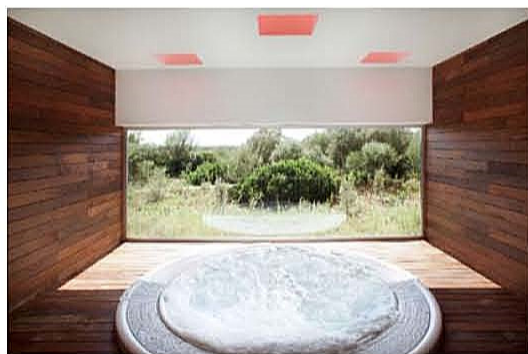

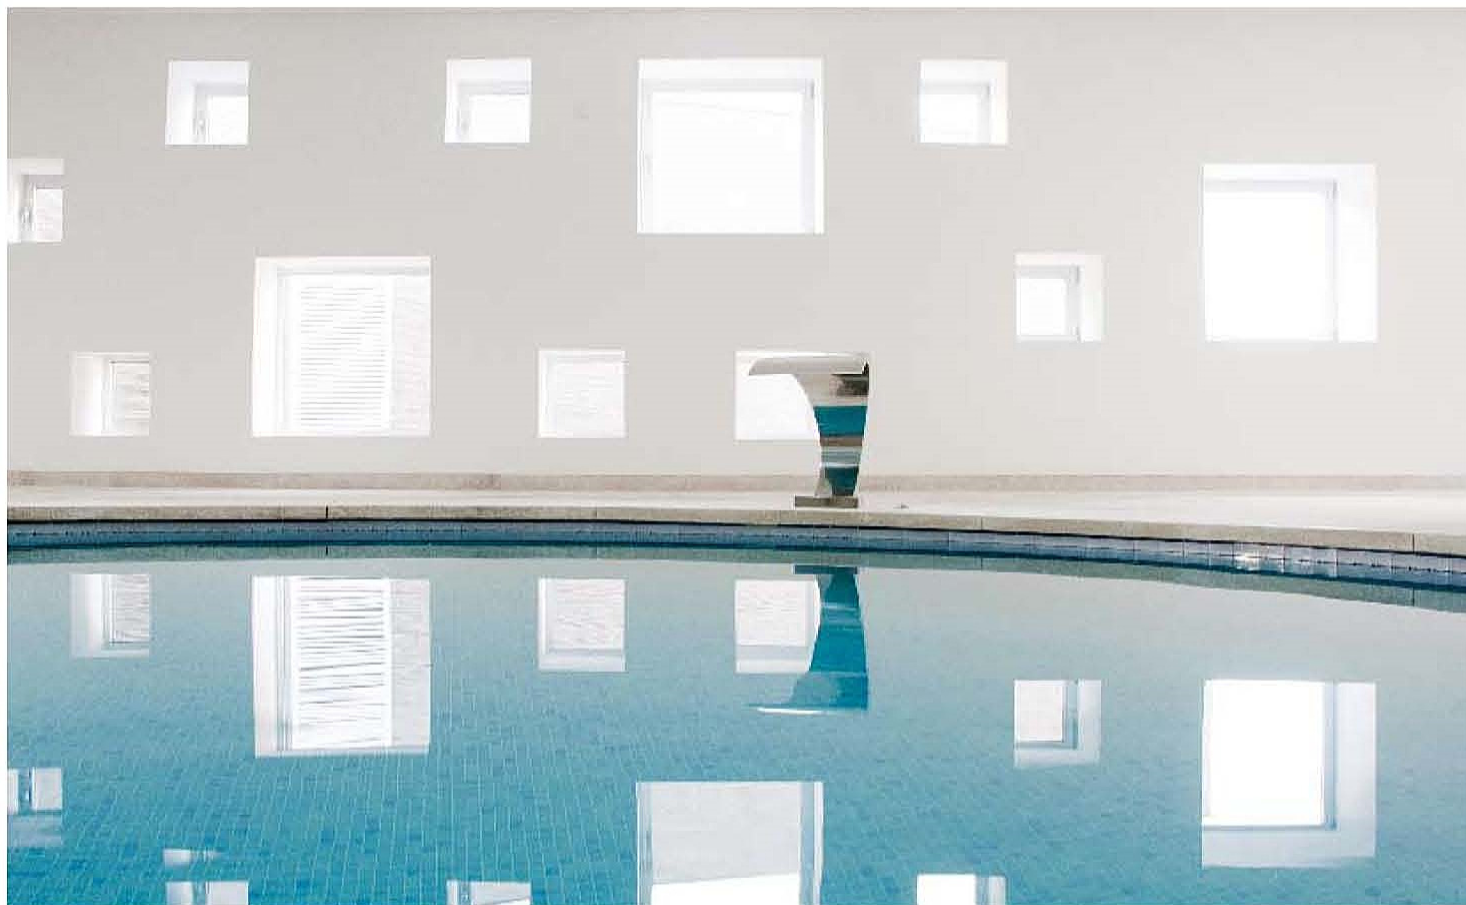

Pool and Spa Area for
Hotel Castell dels Hams

策划: 谢晋峰 文编: 薛新琳 翻译: 孟斐译

1967年,一个叫Castell dels Hams的小旅馆建立在地中海小岛屿马略卡茂盛的绿色植被之间。随着时间推移,经过一些改进与扩建,如今它已成为马略卡岛最有特色的酒店之一。而在最近一次改建计划中,设计师希望将地中海的日光和周边田园般的自然风光引入室内,让这家酒店不光只是一个度假胜地,同时赋予它更多的使用功能。改建工作主要是移除恒温泳池上原有的篷盖结构与围墙,并在相邻区域创建一个水疗中心。整个项目分成两个独立区域,并采用有针对性的设计,以顺应两种功能空间自身的具体需求。

最初,泳池设在酒店的后部,相对封闭的位置让它变成了一个被浪费的空间。该项目的调整不仅仅是重新空间重新被有效利用,同时更要突出酒店阳光明媚的地理氛围。因此设计师在泳池的屋顶以及部分墙面设计了一系列方形开口,这些开口大小不一,形成一个天窗,光线如同两点般倾泻而下,或映照在水疗中心的池壁上,或投射在墙壁上,形成一种流光溢彩的图案,让空间变得更加通透而有趣。而这样的设计使得建筑本身也成为水疗理疗的一部分,形成舒适、自然的氛围,令游客完全沉浸其间。此外,在水疗中心位置设计师还特意开辟了一个欣赏周围自然景观的最佳视点——巨大的方形开口,游客享受水疗的同时,周围的自然景观一览无遗。经过翻新的泳池表面更加美观,屋顶上还建了一个屋顶花园,它与新建的水疗中心的表皮有着相同的方形开口语言,光线从多方位引入室内,形成优美的室内光之协奏。

透过天窗的光柱如同雨点般倾泻而下，或映照在水疗中心的池底里，或投射在墙壁上，形成一幅幅光洁的图画

In 1967, a small hotel, Hotel Castell dels Hams, was established on the island of Majorca amid the Mediterranean vegetation. Over time, and through subtle improvements and extensions, it has become one of the most distinctive hotels on the eastern part of the island. The last of the alterations, meant to celebrate the Mediterranean light and the location's idyllic bond with nature, turned the hotel into much more than just a holiday destination. The work centered on replacing the covering and enclosure of the existing heated pool and to create an adjacent spa to supplement it. During development, the project was split into two independent zones, each designed to suit its own specific purpose.

The pool was originally connected to what was once considered the back of the hotel, where it was confined to a space that was clearly being wasted.

The challenge of the project was not only to stop the new areas from being used as secondary features, but to ensure they were used to highlight the hotel's sunniest facade. The main pool area is adorned with a series of square openings for windows in the roof that allow the light to flood into the area. This makes the building itself part of the treatment, offering the feeling of well-being created by nature when it is introduced into the building, a feeling of total immersion for the visitor. In the spa area, the space is sculpted and colorful showers of light flow through the openings in the roof. Now completed, the existing pool has got new facades and a new green roof, which is dotted with a series of square openings. This interplay of window holes creates a beautiful dance of light reflections in the building.
